

Abbott Northwestern Nursing Professional Practice Model

Allina Health 

Nursing Professional Practice Model

The Nursing Professional Practice Model provides a visual representation of nursing practice at Abbott Northwestern (ANW) Hospital.

Nursing practice at ANW is grounded by the American Nurses Association (ANA) Scope & Standards and Ethics, Allina Health's Core Beliefs and Commitment to Care, and the Abbott Northwestern Nursing Governance structure. Relationship-based care is core to nursing practice and essential for fostering collaboration with patients, colleagues, community, and individual self-care.

The leaves represent characteristics meaningful to nurses and nursing practice.
