Configuring ServiceNow Mobile app on a Tablet or Smartphone

KB0020819

☆☆☆☆ 204 views Article: KB0020819 v2.0 - Latest Version

Introduction

This document will show the process for connecting to the Now Mobile application from an Apple iPhone. The process is the same for android but the images may slightly differ. To access Now Mobile, you will need to download the Now Mobile application and have a RSA token or be set up for a soft RSA via application, and download the RSA Authenticate application.

Configuring ServiceNow's Now Mobile Client

1. Launch the Now Mobile application from your device.

2. Enter allina.service-now.com where it indicates example.service-now.com, click Save and Log in.

3. Sign into the Application Portal for Allina Health with your network ID and password.

Cancel 🔒 so.allina.com 🗚 💍
