

Nursing at Allina Health

Nursing Vision

Allina Health nurses will be exceptional advocates, partners and providers of nursing care

Nursing Goals

- Support a professional nursing practice environment that fosters personal accountability to incorporate evidence-based practice into daily practice
- Develop and support exceptional nurse leaders which enhances visionary and transformational leadership skills
- Foster a nursing culture that consistently and reliably delivers the highest outcomes of patient care and service
- Establish a system-wide professional nursing development path

Nursing Core Beliefs

- Advocacy
- Caring
- Continuous Improvement
- Cultural Awareness and Recognition
- Ethics
- Leadership
- Relationships
- Stewardship

Allina Health nurses

are the embodiment of the art and science of caring. Every day, more than 5,200 nurses across the organization use their expertise and passion to advocate and provide care for patients, while elevating the standards of exceptional nursing practice. The Allina Health Nursing Vision, Goals and Core Beliefs support our nurses in these efforts.
