Stay Fit

A supervised/directed exercise-based program. Work on balance, stretching, range of motion, strengthening, coordination, and cardio/endorance.

Cost: \$230 for a 10-week session (30 minutes - once/week)
\$460 for a 10-week session (60 minutes - once/week)

Stay Fit Max

A directed exercise program utilizing specialty trained staff or two Fitness Specialists. Designed for people who would like more sensory cueing (hands on) while challenging their body to the max.

Cost: \$840 for a 10-week session (60 minutes- one/week)

Lokomat

This robot-assisted treadmill supports you in an upright position while you move your legs through a normal walking pattern. The Lokomat is most effective for patients with neurological concerns such as spinal cord injury, post-stroke, cerebral palsy, or a traumatic brain injury. Participants must have completed a physical therapy assessment and Lokomat training prior to a lokomat fitness program.

Cost: \$683 for a 10-week session (60 minutes - once/week)

One-to-One Program Policies

- One-to-One Fitness Program fees are due the first week of each session.
- There are no make-ups or reschedules allowed for any reason.
- Program fees are non-refundable and non-transferrable.
- Participants may receive a credit for missed sessions if they are unable to attend for at least 2 consecutive weeks in a row due to a medical reason. For this credit the participant must produce a letter from their doctor stating the reason and dates.

Stay Fit FES Bike

For those people whose fitness routine includes use of a Functional Electrical Stimulation (FES) bike

Cost: \$525 for a 10-week session (60 minutes – once / week).

Stay Fit Xcite

For those people whose fitness routine includes use of Xcite Functional Electrical Stimulation (FES) during exercise.

Cost: \$630 for a 10-week session (60 minutes – once / week).

Personal Training

A one-to-one consultation with a fitness professional to plan a customized exercise program to match your fitness needs and goals.

Cost: \$47 for 30 minutes; \$79 for 60 minutes; \$137 for (2) 60 minutes

Resistance Stretching: technique based upon creating constant strength while moving through entire range of motion. Increases blood flow, range of motion, flexibility, strength, function and performance. Decreases pain, stress and injury risks.

Cost: \$37 for 1-30 minutes or \$315 for a 10-week session (30 minutes one/week)

Beyond Balance (Focusing on Fall Prevention)

This individualized, one-to-one exercise program focuses on fall prevention. Individuals will work on balance, general health and wellness. Benefits include increased strength, flexibility, endurance, confidence and muscle balance. An initial assessment is required.

Cost: \$42 for a 60-minute session; \$23 for a 30-minute session.

Rollga

Rollga is a cross-directional foam roller designed to stabilize the hips, increase fascia mobility and can increase range-of-motion. The Rollga foam roller is ideal for muscle recovery, fascia health, and functional restoration of movement. A certified specialist that will apply the roller to your areas of concern and/or full body. This technique may increase your mobility and flexibility in the muscle tissues themselves and therefore improvements for your activities. In addition, rolling can have an effect on tension and decrease pain. Teaching you how to use this tool at home will also increase your benefits and lasting results.

Cost: \$55 - 45-minute session

Available only at Golden Valley

In-Person Group Fitness Programs

Activity Based Locomotor Exercise (ABLE):

The ABLE Program is an intensive fitness program, based on the latest scientific evidence, designed to serve people with neurological conditions. The ABLE team will customize a program to meet your individual goals following a thorough functional and physiological assessment.

The ABLE Program is a complete fitness and wellness program that incorporates

- **Locomotor Training** with Overground activities,
- **Neuromuscular Electrical Stimulation (NMES)**
- **Guided Exercise** activities to encourage muscles and movement below the level of injury.

Physician approval required for participation.

Most ABLE Program participants experience improvements in health, fitness, strength and quality of life.
