

Badges and Uniforms

Photo Identification (ID) Badges

All colleges must provide college photo ID badges for clinical students completing experiences at Allina. Students **MUST** always wear their school photo ID badge above the waist. School photo ID badges are imperative for easy identification of students in our facilities.

Student and Onsite Faculty Uniforms

All students are required to follow the Allina Health dress code. Refer to faculty or hosting unit for specific requirements.

- Students/on-site faculty may not have artificial/gel nails and must follow the fragrance-free policy.
- Most disciplines are required to wear scrubs, some may be allowed to wear business casual. Street clothes that may not be worn, such as open toed shoes, hooded sweatshirts, fleece jackets, and scarves. Short or long sleeve shirts or turtlenecks may be worn under scrub tops for modesty or warmth. All under shirts must be a solid neutral color per Allina Health policy.
- Attire in the surgical/procedural (Operating Rooms, Labor and Delivery, etc.,) areas includes specific clothing that meets Infection Prevention policy. Students must wear close-toed rubber soled shoes with socks. These areas will provide other surgical clothing for students. If needed, surgical skirts are available with prior request from school. Personal head coverings may be worn when completely covered with a hospital provided disposable head covering that is lint-free. It must be completely covered by a surgical hood, with a supplemental bouffant if needed.

Allina has a standard scrubs uniform color for specific clinical disciplines. Students must **NOT** wear the same color as the licensed/certified employees of that specific clinical discipline.

ROLE	COLOR
RN	Navy
LPN	Purple
Environmental Services and Linen	Dark Brown
Lab	Dark Teal
Materials	Khaki
Nutrition Services	Maroon and Black
Patient Care Support	Teal
Patient Clerical Services	Green
Pharmacy	Maroon
Respiratory	Olive Green
Radiology	Gray
Rehab	Royal

- If your school/clinical program has a current uniform color policy, please continue following school policy. Scrub tops need to have either embroidery or applied patch with school name and program.
- If your school/clinical program does **NOT** have an existing uniform policy, you should wear solid-colored scrubs with a different colored top and bottom. The non-matching top and pants will identify you as a student.
