

Post Heart Transplant Biopsy & Clinic Schedule

You will have regular biopsies your first year after surgery. The schedule for most patients is:

- First month- every week
- 2 to 3 months- every 2 weeks
- 4 to 6 months- every 4 weeks
- 7 to 12 months- at the 9 month and 1 year
- After 1 year- as needed.

After your first year of transplant:

- Outpatient Labs every 3 months
- Clinic Visit every 6 months. Clinic visits may or may not include the following:
 - Labs
 - Chest Xray
 - EKG
 - Echocardiogram
 - Angiogram, PET Scan, or CT Angiogram
