

Welcome to the Allina Health Kids, Teens & Young Adults Weight Management Program!

This program is available to help you achieve a healthier weight. Your health care team will help you with your concerns about weight and how it might be affecting your health.

Each team member specializes in caring for kids, teens and young adults who have obesity. For additional support in talking as a family about weight and health: www.weighinonobesity.org

Meet Your Health Care Team

Doctor

The doctor will complete a medical evaluation and create an individual treatment plan. The treatment plan will may include lab tests, medication recommendations, and referrals to other specialists.

Dietitian

The dietitian will look at current eating habits and overall nutrition to help you set small goals to make improvements in food choices, portion sizes, and mindful eating strategies.

Courage Kenny Kids Physical Therapists

The physical therapists evaluate your current physical abilities and fitness routines. She will work with you and your family to set physical activity goals that are right for you and may help find a physical therapist closer to your home for continued care.

Surgeon

For some kids, teens, and young adults, working with the specialists in our program may include discussions about weight loss surgery. If you and the team decide that weight loss surgery is right for you or you have questions about this weight loss option, you can sit down with a surgeon to learn more and get any questions answered.
