## Allina Health Weight Management

Thank you for choosing Allina Health Weight Management. The Weight Management Program offers comprehensive weight loss options for patients of all ages. Please review the following descriptions to assure we get you scheduled with the right program and providers.

### Kids, Teens and Young Adults Weight Management Program - serving ages 25 and younger

The Kids, Teens and Young Adult program is a resource to achieve a healthier weight. Individuals and families work with medical doctors, dietitians, nurse practitioners, mental health providers, physical therapists, surgeons, and other specialists. If you are interested in the program, please complete a different intake form for that program. It can be found at AllinaHealth.org/kidswm.

### **Medical Weight Management Program**

Individual Program – The individual program is a personalized, one-on-one non-surgical program. Patients meet with a weight loss physician or nurse practitioner to create a specialized treatment plan. A registered dietitian will develop a diet tailored to your specific needs. The focus is on portion control, healthy eating, and a moderately reduced calorie diet that will work for you. This plan may include medications. The individual program cost for provider and dietitian visits is covered by most insurers, with the exception of Medicare and Medicare replacement plans.

Allina Health Weight Management offers a cash pay option for dietitian visits for Medicare and Medicare replacement plan patients.

### Surgical Weight Management Program

The surgical program offers the sleeve gastrectomy, Roux-en-Y gastric bypass, and duodenal switch operations. Your decision to have weight loss surgery is personal and complex. The Surgical Weight Management team of surgeons, physician assistants, nurse practitioners, psychologists, nurses, dietitians, and support staff will provide support, assistance, and advice throughout your journey before and after weight loss surgery.

Please remember that with any clinic visit, co-pays, coinsurance and deductibles may apply.
