

Jan. 21, 2026

During today's bargaining session with the Doctors Council SEIU for Primary Care and Urgent Care, we engaged in a few off-the-record discussions on potential paths toward reaching a contract agreement.

Throughout the entire bargaining process, we have demonstrated a consistent willingness to make movement and find common ground with the union. It remains essential that the union work toward narrowing their scope and refining their proposals to help streamline meaningful discussions.

Next steps

Our next bargaining session is Monday, Feb. 9. We appreciate your commitment to delivering compassionate and high-quality care to our patients.
