

NEGOTIATION NEWS

A MESSAGE FROM

JESSICA OISETH *Vice President, Operations, Primary Care*

SETH VOGEL, MD *Vice President, Medical Operations, Primary Care*

Feb. 12, 2026

We spent most of today's bargaining session with the Doctors Council SEIU for Primary Care and Urgent Care continuing to engage in off-the-record conversations. These informal discussions often allow for open dialogue on where we can move forward and find middle ground.

Toward the end of the day, the union offered a formal compensation proposal and a package proposal on employment agreements, a PTO plan and provider patient contact hours. We will provide our response at the next session.

Next steps

Our next bargaining session is Wednesday, Feb. 25. We appreciate your dedication to providing compassionate care to our patients and communities.
