

Media Statement | SEIU Doctors Council (Primary Care) Tentative Agreement | 4.2.26

We are pleased that Allina Health and Doctors Council SEIU, representing clinicians in Primary and Urgent Care, have reached a tentative agreement. The agreement is now subject to ratification by union membership.

The tentative agreement reflects the priorities of both parties and supports Allina Health's ability to continue caring for our community well into the future. This important step forward allows us to focus on caring for patients and supporting the teams who provide that care every day.
