

# SMAR<sub>x</sub>T DISPOSAL

## Prevent abuse, poisoning and pollution

As a health care organization, we're serious about preventing medication misuse and abuse.

According to the Minnesota Department of Health, more than half of the drug-related deaths in 2015 were related to prescription medications rather than illegal street drugs. Unused and expired medicines in your home can pose a risk for accidental poisoning, theft and drug abuse.

## Did you know?

- **75%** of heroin addicts start out as prescription drug abusers
- **60%** of Americans have left over narcotics in their homes – and **20%** have shared those with another person
- **50%** of Americans don't know how to safely get rid of the drugs left over after their treatment was complete.

## Get rid of your medications the right way

1. Pick up a **Deterra™ drug deactivation packet** at any Allina Health pharmacy while supplies last.
2. See the back of this flier to find your local disposal site (*Most local sites accept prescription, over-the-counter and pet medications*)
