

Tesla.

Drive a car that's out of this world.

On Feb. 6, 2018, SpaceX founder and CEO, and Tesla co-founder and CEO Elon Musk launched his personal Tesla Roadster into space.

This combination of brilliant, boundary shattering technologies brings into focus a peek of what the future will hold.

And your future can hold a piece of that technology when you slip behind the wheel of a 2018 Tesla Model 3!

Like every Tesla vehicle, Model 3 combines range, performance, safety and technology. Intelligent design maximizes interior space to comfortably fit five adults and all of their gear. The high-efficiency powertrain provides zero to 60 mph acceleration in as little as 5.1 seconds.

Tesla Model 3 is United Hospital Foundation's 2018 raffle car for the first – perhaps only – time ever.

Help support the future of St. Paul and you could drive away in a car of the future.
